

Battleship puzzle 11: 8x8, fleet logic

8 x 8 · 9 ships · 19 ship squares · 3 given squares · fleet logic

Find the hidden fleet. Each number counts the ship squares in its row or column. Ships lie straight and never touch, not even at a corner. Wavy squares are water.

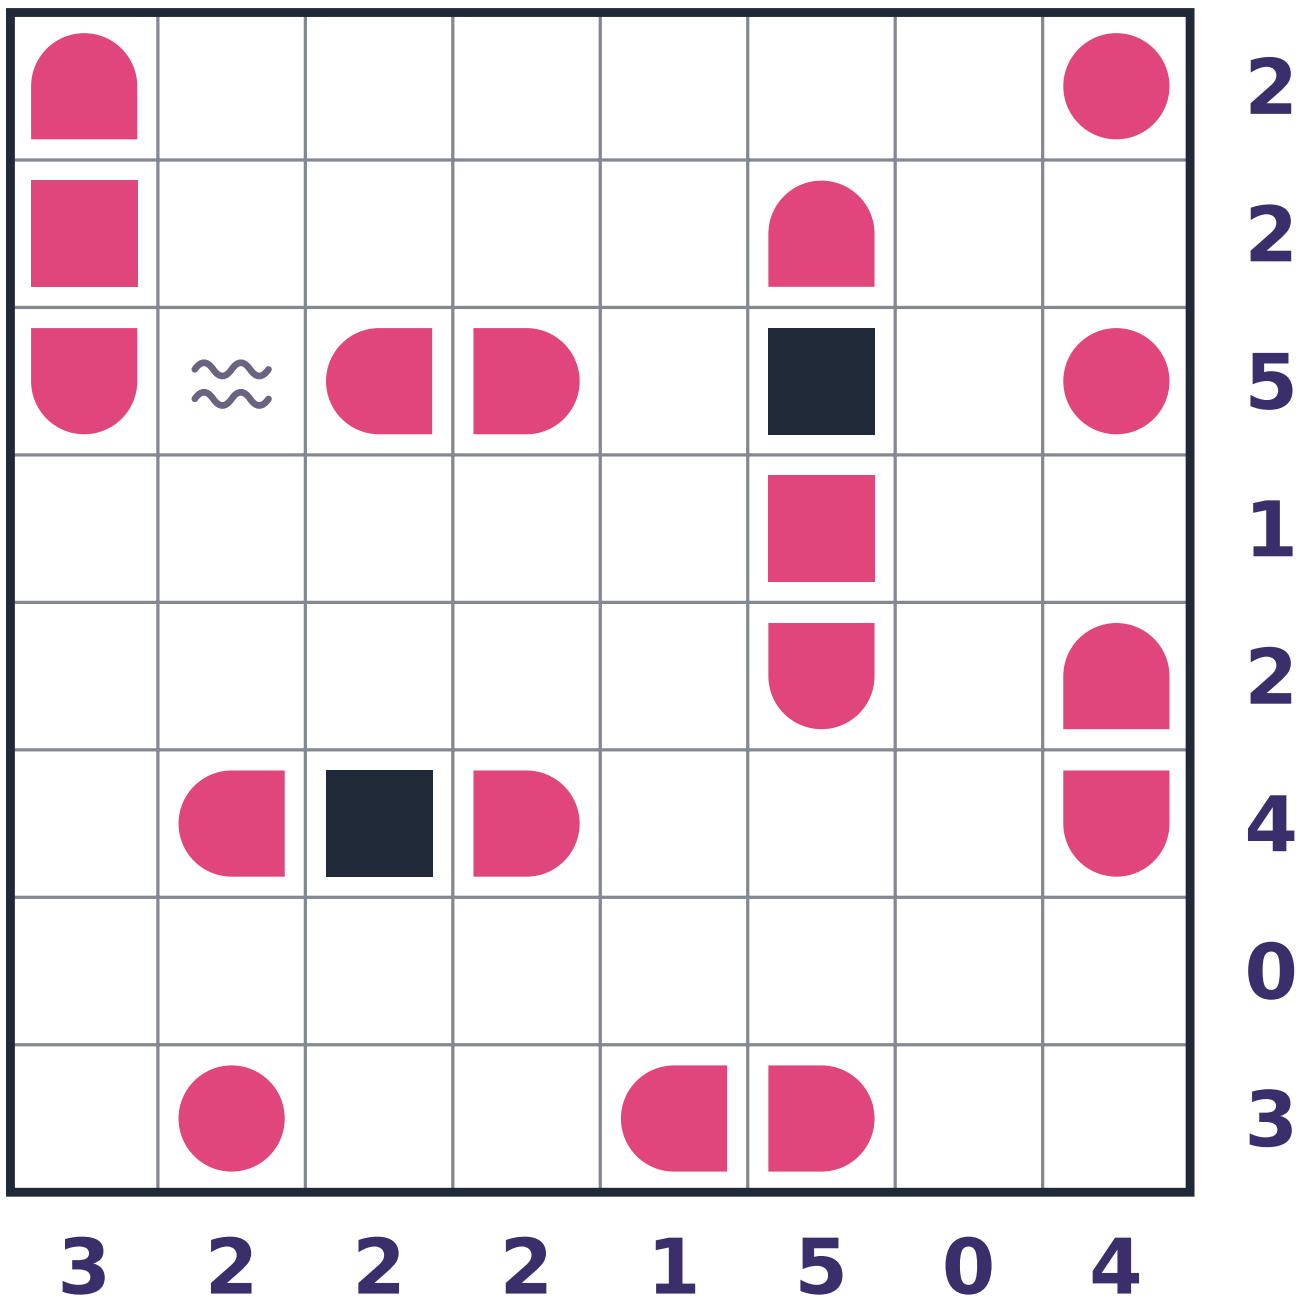

Fleet:

Battleship puzzle 11: 8x8, fleet logic (solution)

8 x 8 · 9 ships · 19 ship squares · 3 given squares · fleet logic

Find the hidden fleet. Each number counts the ship squares in its row or column.
Ships lie straight and never touch, not even at a corner. Wavy squares are water.
