

## Battleship puzzle 14: 10x10, counting only

10 x 10 · 10 ships · 20 ship squares · 6 given squares · counting only

Find the hidden fleet. Each number counts the ship squares in its row or column. Ships lie straight and never touch, not even at a corner. Wavy squares are water.

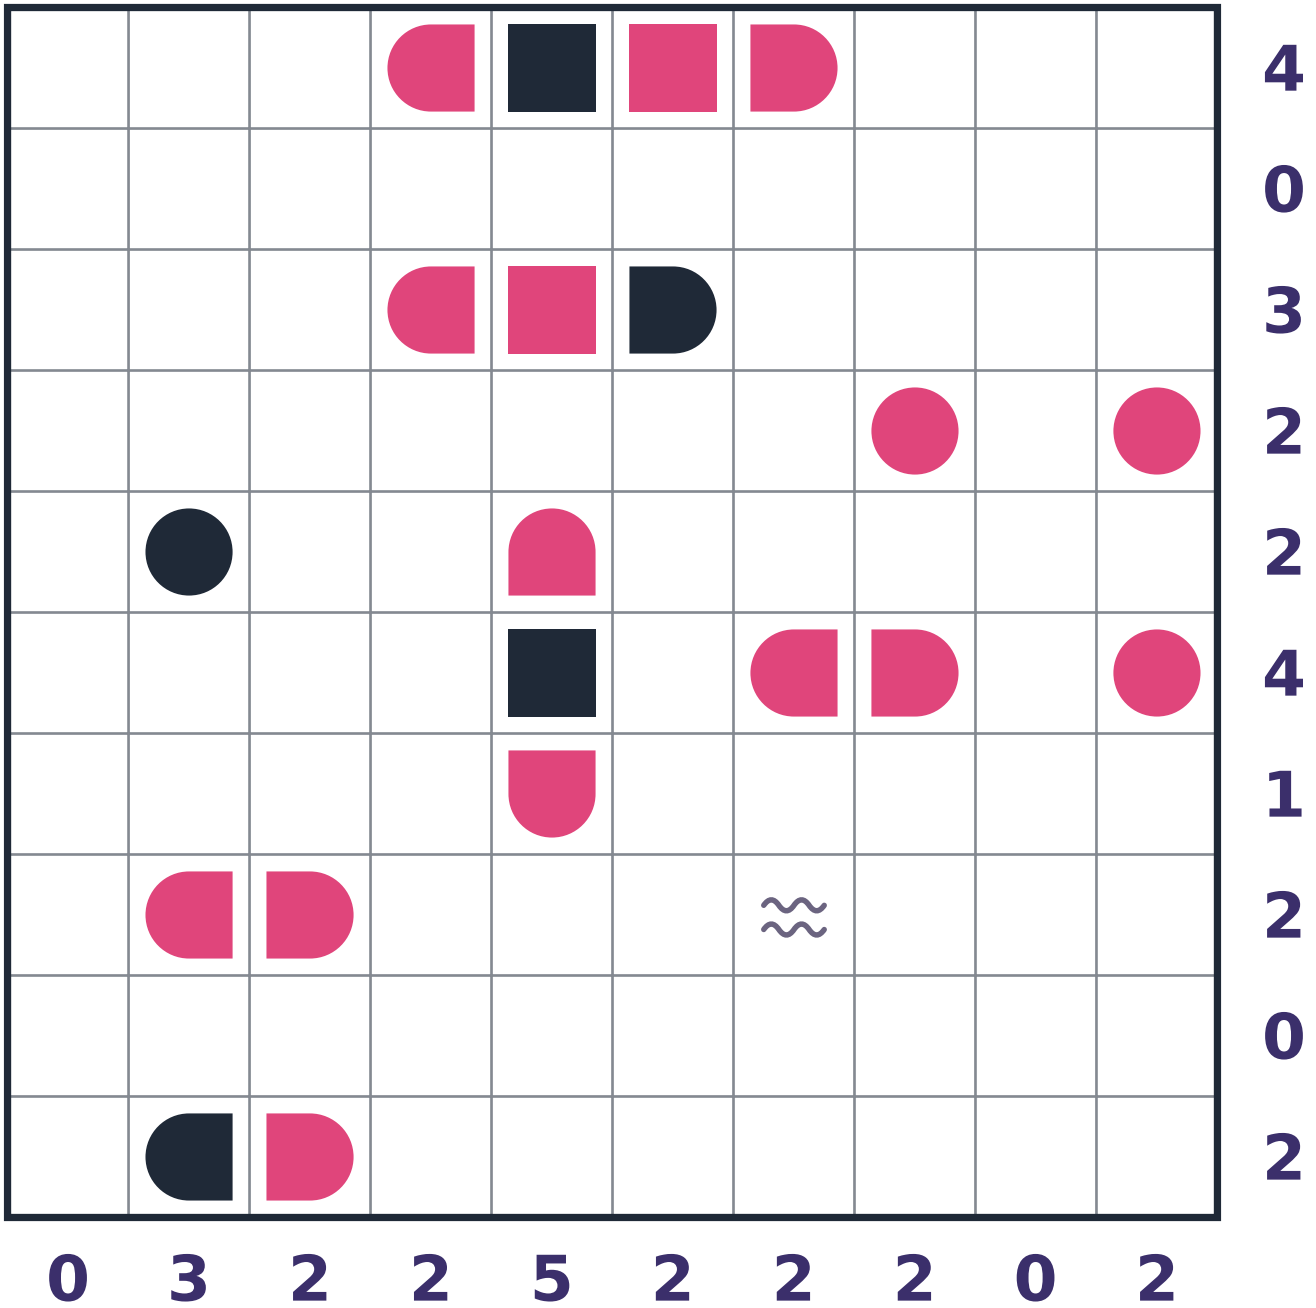

**Fleet:**

## Battleship puzzle 14: 10x10, counting only (solution)

10 x 10 · 10 ships · 20 ship squares · 6 given squares · counting only

Find the hidden fleet. Each number counts the ship squares in its row or column. Ships lie straight and never touch, not even at a corner. Wavy squares are water.

**Fleet:**
