

Battleship puzzle 16: 10x10, fleet logic

10 x 10 · 10 ships · 20 ship squares · 4 given squares · fleet logic

Find the hidden fleet. Each number counts the ship squares in its row or column. Ships lie straight and never touch, not even at a corner. Wavy squares are water.

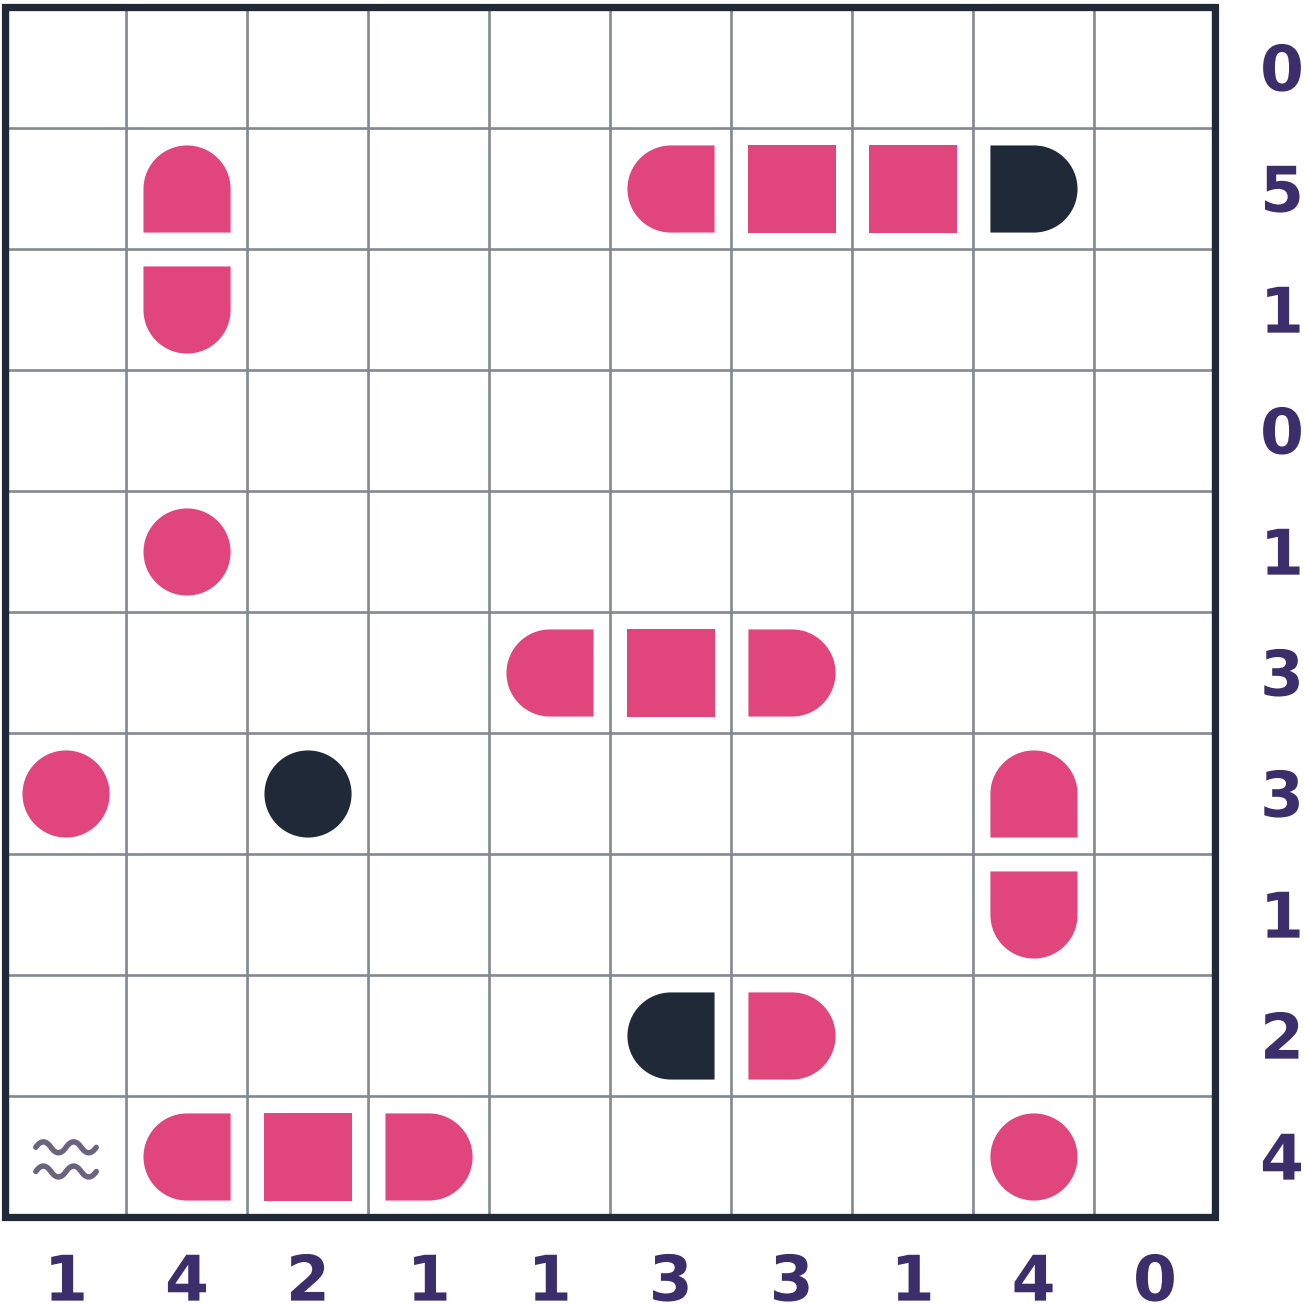

Fleet:          

Battleship puzzle 16: 10x10, fleet logic (solution)

10 x 10 · 10 ships · 20 ship squares · 4 given squares · fleet logic

Find the hidden fleet. Each number counts the ship squares in its row or column. Ships lie straight and never touch, not even at a corner. Wavy squares are water.

Fleet:
