

Battleship puzzle 22: 12x12, fleet logic

12 x 12 · 15 ships · 35 ship squares · 12 given squares · fleet logic

Find the hidden fleet. Each number counts the ship squares in its row or column. Ships lie straight and never touch, not even at a corner. Wavy squares are water.

Fleet: 

Battleship puzzle 22: 12x12, fleet logic (solution)

12 x 12 · 15 ships · 35 ship squares · 12 given squares · fleet logic

Find the hidden fleet. Each number counts the ship squares in its row or column. Ships lie straight and never touch, not even at a corner. Wavy squares are water.

Fleet:
