

Battleship puzzle 27: 10x10, no submarines

10 x 10 · 7 ships · 23 ship squares · 4 given squares · fleet logic

Find the hidden fleet. Each number counts the ship squares in its row or column.
Ships lie straight and never touch, not even at a corner. Wavy squares are water.

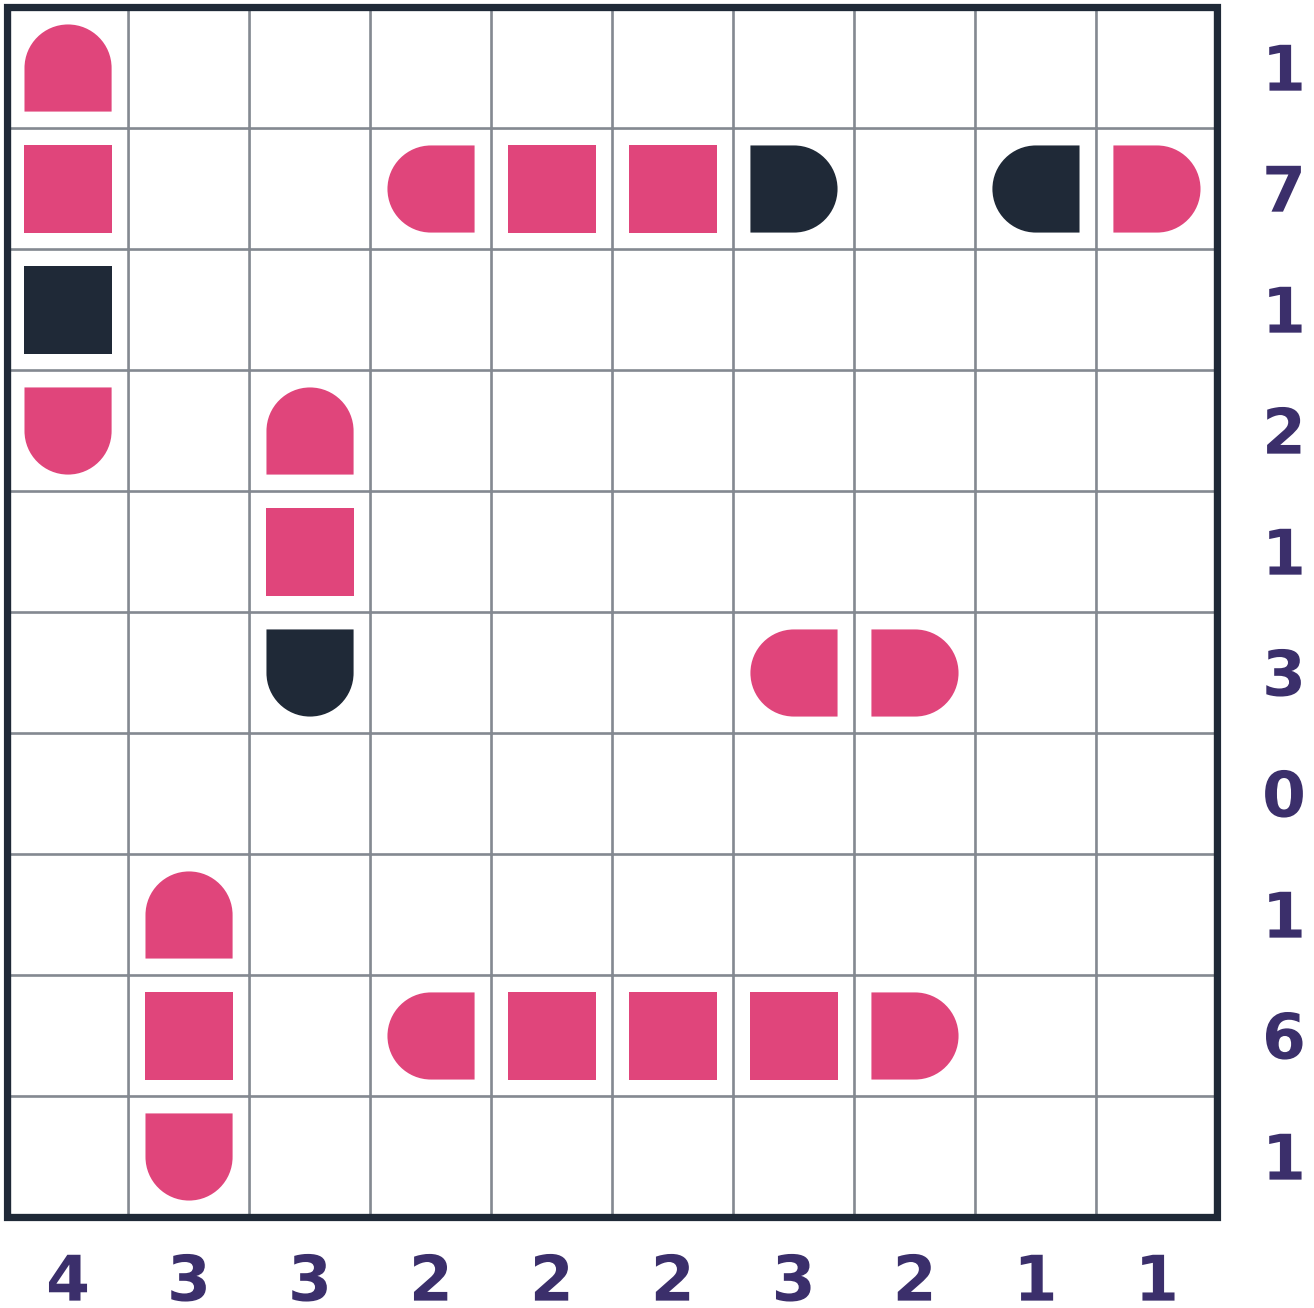

Fleet: □□□□□ □□□□ □□□□ □□□ □□□ □□ □□ □□

Battleship puzzle 27: 10x10, no submarines (solution)

10 x 10 · 7 ships · 23 ship squares · 4 given squares · fleet logic

Find the hidden fleet. Each number counts the ship squares in its row or column. Ships lie straight and never touch, not even at a corner. Wavy squares are water.

Fleet:
