

Battleship puzzle 29: 10x10, submarine pack

10 x 10 · 12 ships · 21 ship squares · 6 given squares · fleet logic

Find the hidden fleet. Each number counts the ship squares in its row or column. Ships lie straight and never touch, not even at a corner. Wavy squares are water.

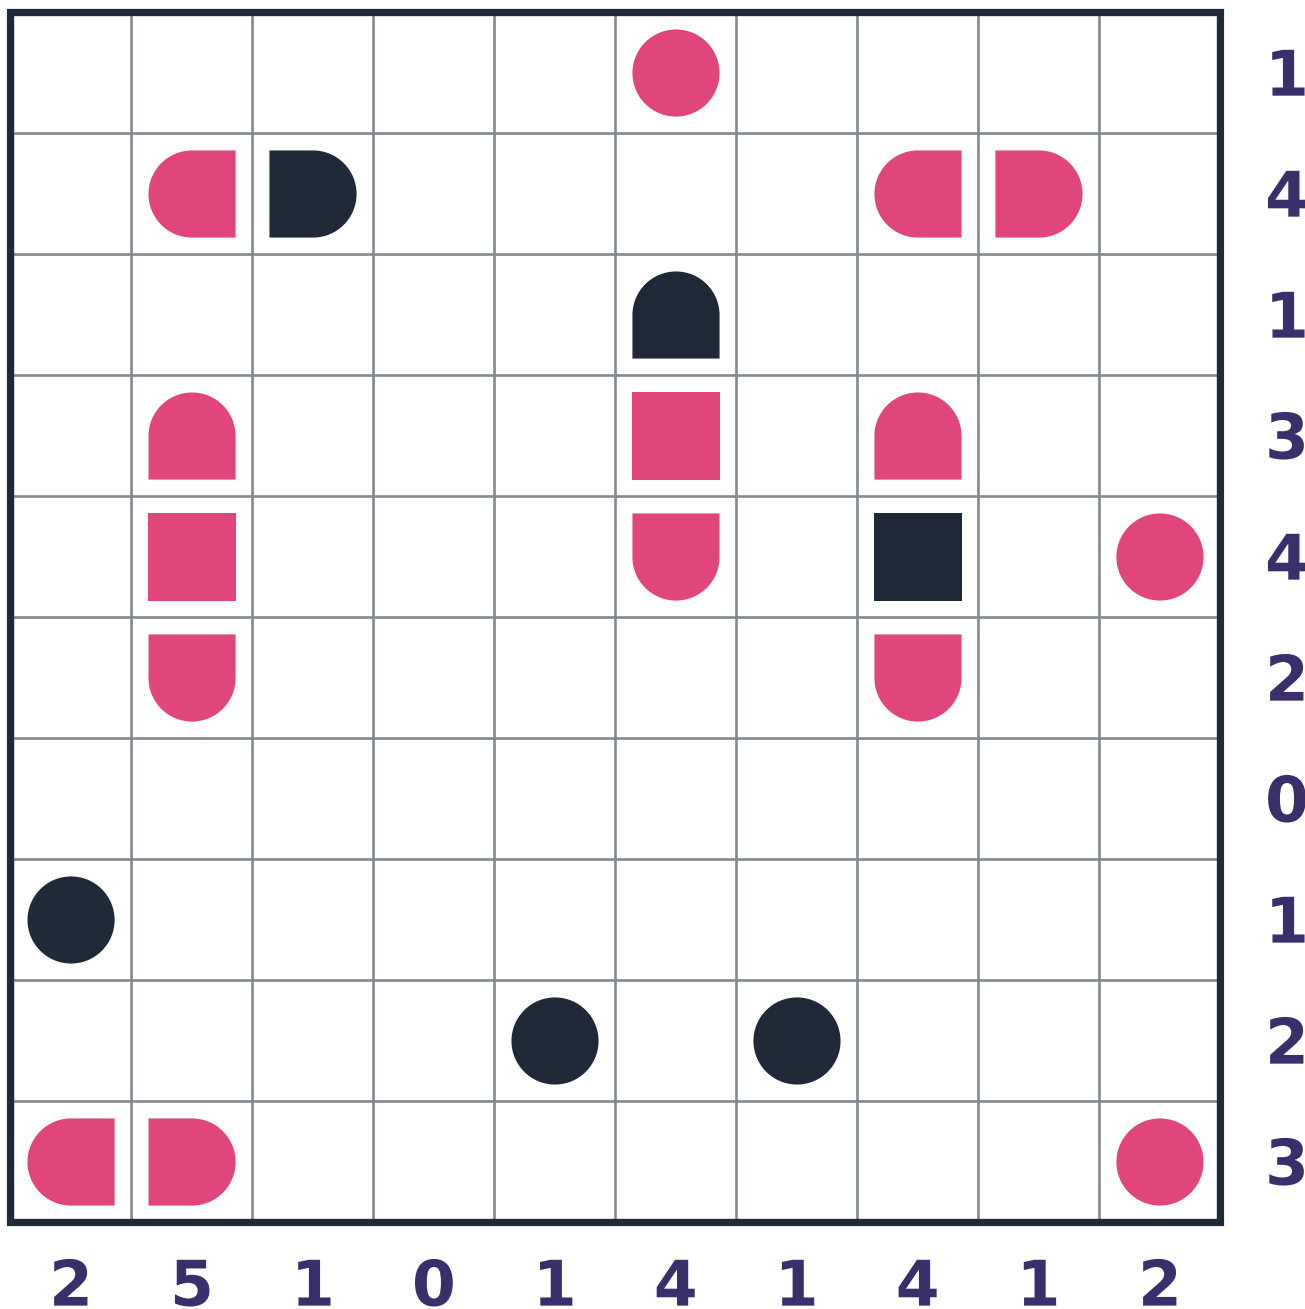

Fleet:            

Battleship puzzle 29: 10x10, submarine pack (solution)

10 x 10 · 12 ships · 21 ship squares · 6 given squares · fleet logic

Find the hidden fleet. Each number counts the ship squares in its row or column.
Ships lie straight and never touch, not even at a corner. Wavy squares are water.
