

Battleship puzzle 30: two 6x6 boards

6 x 6 · 6 ships · 10 ship squares · 2 given squares + 1 given square

Find the hidden fleet. Each number counts the ship squares in its row or column. Ships lie straight and never touch, not even at a corner. Wavy squares are water.

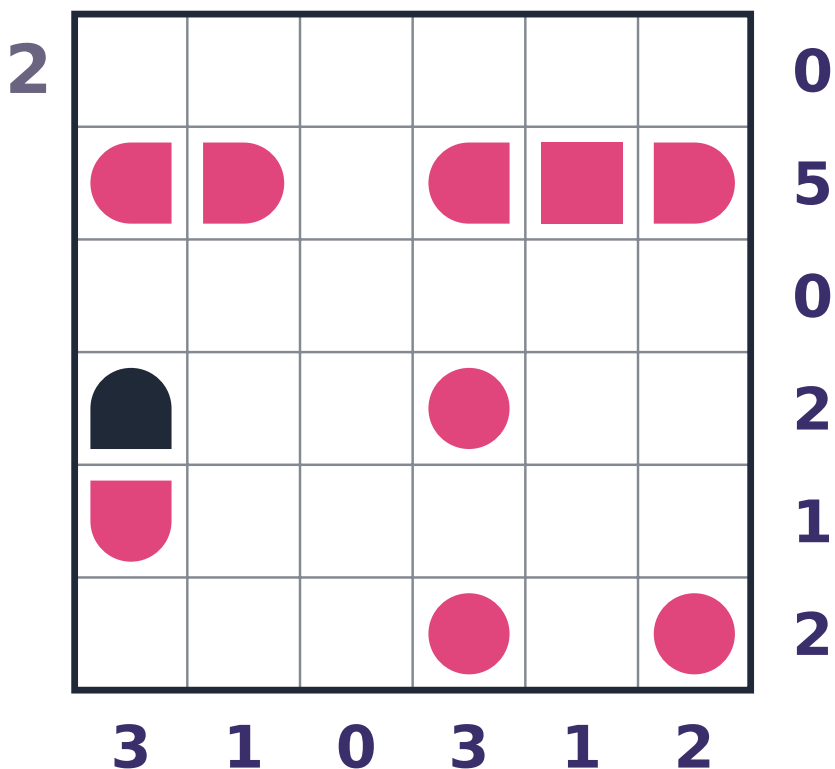

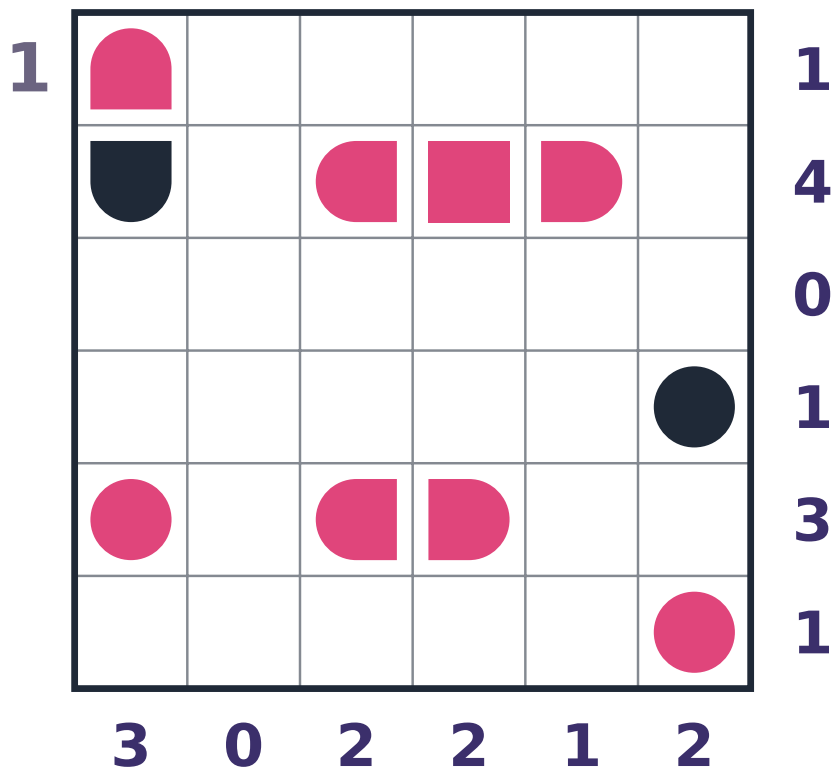

Fleet, each board:

Battleship puzzle 30: two 6x6 boards (solution)

6 x 6 · 6 ships · 10 ship squares · 2 given squares + 1 given square

Find the hidden fleet. Each number counts the ship squares in its row or column. Ships lie straight and never touch, not even at a corner. Wavy squares are water.

Fleet, each board:
