

Battleship puzzle 32: two 8x8 boards

8 x 8 · 9 ships · 19 ship squares · 4 given squares + 3 given squares

Find the hidden fleet. Each number counts the ship squares in its row or column. Ships lie straight and never touch, not even at a corner. Wavy squares are water.

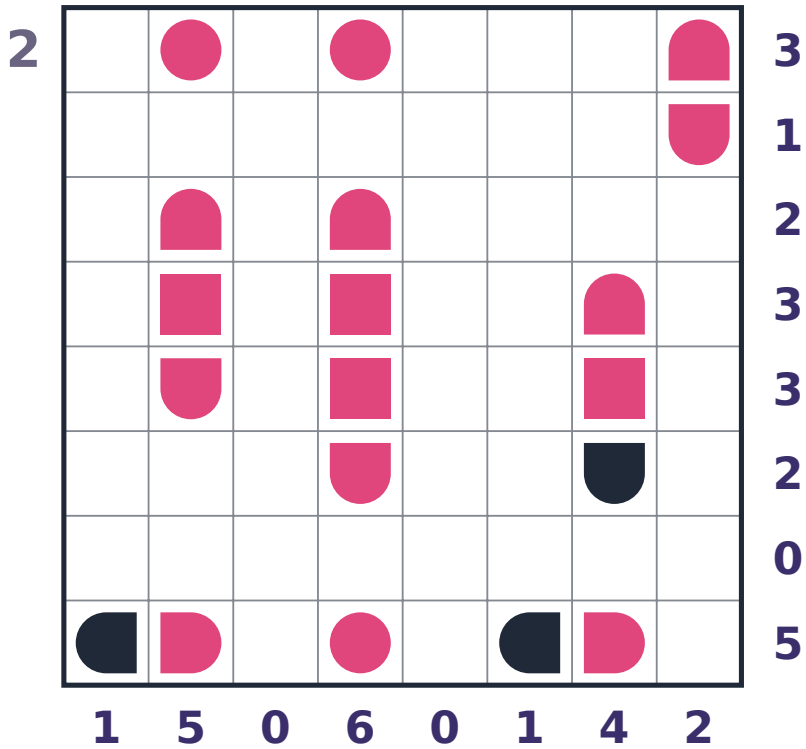

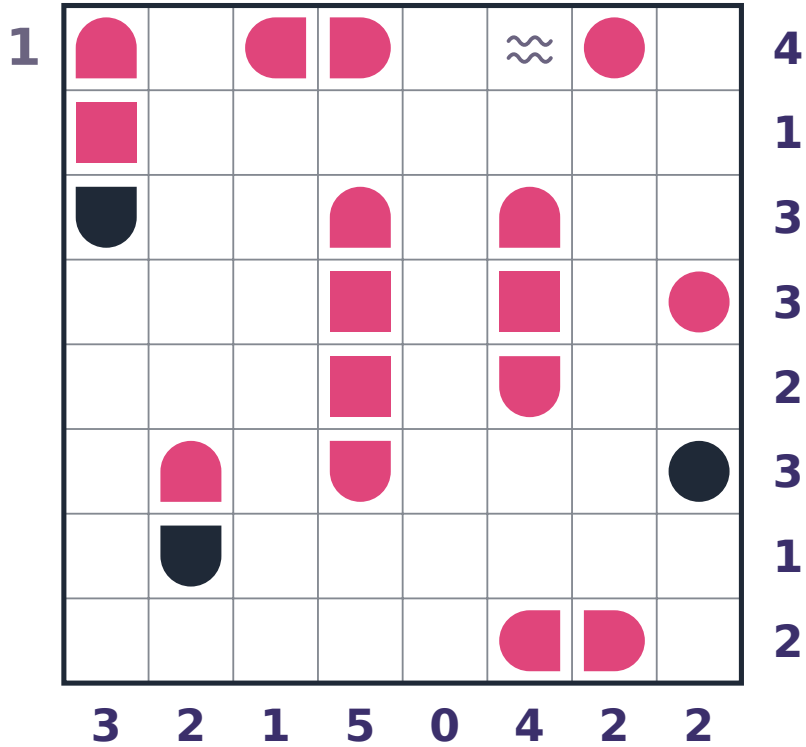

Fleet, each board: ◻◻◻◻ ◻◻◻ ◻◻◻ ◻◻ ◻◻ ◻◻ ◻◻ ◯ ◯ ◯

Battleship puzzle 32: two 8x8 boards (solution)

$$8 \times 8 \cdot 9 \text{ ships} \cdot 19 \text{ ship squares} \cdot 4 \text{ given squares} + 3 \text{ given squares}$$

Find the hidden fleet. Each number counts the ship squares in its row or column. Ships lie straight and never touch, not even at a corner. Wavy squares are water.

Fleet, each board:
